

DS-200[®] Dielectric Cleaner

Safe Cleaning of Electrical Components and Machinery

DS-200 Dielectric Cleaner is a highly effective solution designed to safely and quickly remove oils, grease, water, dirt, and sticky residue from electrical components, machinery, motors, and tools. It displaces water and inhibits rust and corrosion, ensuring the longevity and reliability of your equipment.

Key Features:

- **Non-toxic** and highly biodegradable.
- **Fire Resistant:** Safe for use in various electrical applications.
- **High Dielectric Strength:** Ideal for cleaning transformers, bushings, switchgear, busbars, and other electrified components.
- **Environmentally Friendly:** Contains no PFAS, halogenated solvents, or other hazardous ingredients.
- **Safe for Plastics and Rubbers:** Does not degrade plastic or rubber components.
- **User Safety:** Can be used without extensive protective equipment due to its high flash point and non-toxic formulation.

Composition: Made from synthetic oils, highly refined petroleum fractions

Applications: DS-200 Dielectric Cleaner can be applied via spray or wipe. Apply DS-200, allow the solvent action to work for a moment, then remove dirt and excess cleaner, leaving a clean protective layer.

Key Properties: Premixed and ready to use / Efficiently cuts through oils and greases / Contains no water, preventing corrosion / Fire resistant / High dielectric strength / No hazardous ingredients

CHARACTERISTICS OF DS-200 DIELECTRIC CLEANER

Characteristics	ASTM Reference	Value
Appearance	n/a	Clear
Dielectric Strength (volts)	ASTM D-1816 (2mm)	35kV
Flash Point, COC	ASTM D-92	164C
Specific Gravity (15.6C / 60F)	ASTM D-287	0.81
Pour Point	ASTM D-97	-40C
Solubility in Water (% @ 68° F)	Calculated	<0.10
VOC Content	Calculated	none
Shelf Life ¹	n/a	2 Years from Manufacturing Date

Usage Instructions:

1. Apply DS-200 Dielectric Cleaner using spray or wipe methods.
2. Allow the solvent action to work for a moment.
3. Remove dirt and excess cleaner, leaving a clean protective layer.

Safety and Handling: DS-200 Dielectric Cleaner is formulated to be safe for users, with no extensive protective equipment required due to its high flash point and non-toxic properties. Always follow standard safety practices when handling and applying the product.
